

## **AMENDMENT TO THE CLAIMS**

This listing of claims will replace all prior versions and listings of claims in the application:

### **LISTING OF CLAIMS**

Claim 1 (currently amended): An ornament, comprising:

a main body; and

at least one light emitting device mounted on the main body and including:

a transparent cover mounted on the main body;

a circuit board mounted in the transparent cover and having two connecting legs each exposed outward from the cover; and

a light emitting member mounted on and connected to the circuit board;

wherein, when the two connecting legs of the circuit board contact liquid, the circuit board and the light emitting member are connected and conducted, so that the light emitting member can emit blinking light outward from the cover; and wherein,

the main body has a top provided with an annular wall formed with a receiving chamber;

the transparent cover is mounted on the top of the main body and has an opened bottom, and the light emitting device further includes a bottom plate mounted in the bottom of the cover and rested on the top of the main body; and

the circuit board is rested on the bottom plate.

Claim 2 (canceled)

Claim 3 (currently amended): The ornament in accordance with claim [[2]]  
1, wherein the at least one light emitting device is mounted in the receiving chamber  
of the main body.

Claim 4 (currently amended): The ornament in accordance with claim [[2]]  
1, further comprising an ice sculpture mounted in the receiving chamber of the main  
body.

Claim 5 (canceled)

Claim 6 (canceled)

Claim 7 (currently amended): The ornament in accordance with claim [[5]]  
1, wherein each of the two connecting legs of the circuit board is extended through  
the bottom plate.

Claim 8 (original): The ornament in accordance with claim 1, wherein the  
light emitting member is located in an inner space of the cover.

Claim 9 (currently amended): The ornament in accordance with claim 1,  
wherein the ~~main body has a top provided with an annular wall formed with a~~  
receiving chamber of the main body [[containing]] contains liquid therein.

Claim 10 (original): The ornament in accordance with claim 1, further  
comprising a plurality of reflective members mounted in an inner space of the cover,  
so that the light emitted by the light emitting member is reflected by the reflective  
members.
